Angela Lanctot introduced today's speaker, **Roger Blackwell**, Ph.D. Roger introduced his new book (his 41st), co-written by Roger Bailey, Ph.D., entitled, Objective Prosperity, How Behavioral Economics Can Improve Outcomes for You, Your Business, and Your Nation. Roger shared multiple Behavioral Economics concepts covered in his book, including the Pilgrims were Socialists, the Economic Inequality Paradox, the Endowment Factor, and the Bullwhip Effect. Behavioral economics is the central reason why a certain companies remain successful over time, while most others don't. Corporate culture is key. There has never been a more important time than right now to praise employees as a part of corporate culture. Behavioral Economics is a science that examines the why and the where are we going, and is absolutely critical to success. As always with Roger, a very interesting presentation.
